Effective dates for claims submission and prior authorization changes as a result of HIPAA for nursing home services

This *Wisconsin Medicaid and BadgerCare Update* provides specific effective dates for the changes that will be implemented by Wisconsin Medicaid as a result of the federal Health Insurance Portability and Accountability Act of 1996 (HIPAA) for nursing home services.

This *Update* gives implementation dates for all nursing home providers, whether they exchange information with Wisconsin Medicaid on paper or electronically.

This *Wisconsin Medicaid and BadgerCare Update* provides specific effective dates for the changes that will be implemented by Wisconsin Medicaid as a result of the federal Health Insurance Portability and Accountability Act of 1996 (HIPAA) for nursing home services. These dates apply to the claims submission and prior authorization changes described in the July 2003 *Update* (2003-58), titled “Changes to local codes, paper claims, and prior authorization for nursing home services as a result of HIPAA.”

This *Update* makes frequent reference to *Update* 2003-58; providers are encouraged to read this *Update* alongside *Update* 2003-58.

For information about effective dates for claims submission and prior authorization changes due to HIPAA that effect durable medical equipment (DME), disposable medical supplies (DMS), and

physical, occupational, and speech-language pathology (SLP) therapies for nursing home providers, refer to service-specific HIPAA *Updates* for these topics, **not** the Nursing Home Services Handbook.

This *Update* gives implementation dates for all nursing home providers, whether they exchange information with Wisconsin Medicaid on paper or electronically. Failure to follow the effective dates that are provided in this *Update* may result in claim denials and returned or denied requests for prior authorization.

Attention: Advice for Providers

Wisconsin Medicaid recognizes that this is a difficult time for providers with the nationwide implementation of HIPAA in October 2003. Providers are cautioned to pay close attention to the deadlines and requirements outlined in this *Update*, which are necessary to assure a smooth transition to the HIPAA standards. Providers should allow additional time to adjust to the new billing requirements and systems changes. Providers may experience a temporary delay in the payment of claims due to increased billing errors and system changes near the federal compliance date of October 16, 2003, as Wisconsin Medicaid, other payers, and providers implement the HIPAA requirements and billing standards.

Providers should note the way the various changes will be implemented. Changes as a result of HIPAA will be implemented based on:

- **Date of service.** For changes implemented based on the date of service, the important question to ask is: **“When was the service performed?”**
- **Date of receipt by Wisconsin Medicaid.** For changes implemented based on the date of receipt, the important question to ask is: **“When will this claim or request for prior authorization be received by Wisconsin Medicaid?”** Providers should allow enough time for mail delivery when meeting the deadlines identified in this publication.

Effective dates for national codes that will replace Wisconsin Medicaid local codes, revised claim instructions, and revised prior authorization (PA) forms and instructions are addressed separately in this *Update*. Codes, claims, and prior authorizations have different implementation procedures.

Medical and nonmedical codes

Codes fit into two categories, medical codes and nonmedical codes. Medical codes describe specific health care conditions and services while nonmedical codes describe general administrative situations.

Medical and nonmedical codes are implemented based on **dates of service** or **date of receipt**, respectively, as required by federal HIPAA regulations.

Nonmedical codes

Changes to nonmedical codes, as indicated in *Update* 2003-58, will be implemented based on the **date of receipt**. For nonmedical codes received on paper claims and paper requests for prior authorization, the changes will be effective

on and after October 1, 2003. For nonmedical codes received on electronic claims, the changes will be effective on and after October 13, 2003. Changes to Wisconsin Medicaid nonmedical codes include:

- Adopting nationally recognized two-digit place of service (POS) codes (refer to *Update* 2003-58).
- Eliminating type of service (TOS) codes on PA forms because they are not national codes (refer to *Update* 2003-58).
- Eliminating local value code “84” on Medicaid claims because it is not a national code. Refer to June the 2003 *Update* (2003-32), titled “Changes to patient liability billing due to HIPAA,” for further information about indicating patient liability on Medicaid claims.

Pre-HIPAA nonmedical codes include TOS codes, one-digit Wisconsin Medicaid POS codes, and local value code “84.”

Medical codes

Changes to medical codes, as indicated in *Update* 2003-58, will be effective for **dates of service** on and after October 1, 2003. National medical codes used by Wisconsin Medicaid include:

- National revenue codes that replace currently used local level of care codes (refer to Attachment 1 of *Update* 2003-58).
- The addition of national condition codes to more adequately describe a disability (refer to Attachment 1 of *Update* 2003-58).

Note: Revenue codes and condition codes are nonmedical codes; however, for Wisconsin Medicaid’s implementation of HIPAA, nursing home providers must use these codes as medical codes.

For **dates of service** on and after October 1, 2003, providers should no longer use local level of care codes on Medicaid claims or PA forms.

Medical and nonmedical codes are implemented based on **dates of service** or **date of receipt**, respectively, as required by federal HIPAA regulations.

Pre-HIPAA medical codes used by Wisconsin Medicaid include local level of care codes.

Claims submission

Different implementation dates will be used for electronic and paper claims. A calendar of HIPAA implementation dates for electronic and paper claims is included in Attachment 1 of this *Update*.

Note: Providers should note the different uses of revenue codes and local level of care codes on electronic claims submission compared to paper claims submission.

Electronic claims submission

For electronic claims received by Wisconsin Medicaid on and after October 13, 2003, providers must use:

- The 837 Health Care Claim: Institutional transaction, commonly known as the 837I (refer to the Medicaid Web site at www.dhfs.state.wi.us/medicaid/ for the 837I companion document).
- National nonmedical codes.
- Local level of care and ancillary codes converted to revenue codes for dates of service before October 1, 2003.

Note: To convert codes, add two zeros to the beginning of the local level of care code or ancillary code. Refer to Attachment 3 of this *Update* for an example.

- Revenue codes and condition codes for dates of service on and after October 1, 2003.

Paper claims submission

For paper claims received by Wisconsin Medicaid on and after October 1, 2003, providers must use:

- HIPAA UB-92 claim instructions (refer to Attachment 2 of *Update* 2003-58).

- National nonmedical codes.
- Local level of care codes and ancillary codes for dates of service before October 1, 2003.
- Revenue codes and condition codes for dates of service on and after October 1, 2003.

Refer to Attachment 3 of this *Update* for claims submission examples for nursing home services.

Electronic claim adjustments

For electronic claim adjustments received on and after October 13, 2003, providers must use:

- The electronic 837I adjustment (refer to the Medicaid Web site at www.dhfs.state.wi.us/medicaid/ for the 837I companion document).
- National nonmedical codes.
- Local level of care and ancillary codes converted to revenue codes for dates of service before October 1, 2003.

Note: To convert codes, add two zeros to the beginning of the local level of care code or ancillary code. Refer to Attachment 3 of this *Update* for an example.

- Revenue codes and condition codes for dates of service on and after October 1, 2003.

Paper claim adjustments

For paper claim adjustments received on and after October 1, 2003, providers must use:

- The Adjustment/Reconsideration Request form and completion instructions; the use of this form is voluntary. Providers may develop their own form as long as it includes all the information on this form and is formatted exactly like this form. (Refer to the June 2003 *Update* [2003-31], titled “Changes to the Wisconsin Medicaid Adjustment Request form and instructions,” for more information about paper claim adjustments.)

Providers should note the different uses of revenue codes and local level of care codes on electronic claims submission compared to paper claims submission.

- National nonmedical codes.
- Local level of care codes and ancillary codes for dates of service before October 1, 2003.
- Revenue codes and condition codes for dates of service on and after October 1, 2003.

Refer to Attachment 4 of this *Update* for examples of claim adjustment requests.

Prior authorization

Refer to Attachment 2 of this *Update* for a calendar of HIPAA implementation dates for prior authorization. As indicated on the calendar, the fax deadline for receiving requests for prior authorization using the pre-HIPAA PA forms is 11:59 p.m. on September 30, 2003.

New requests for prior authorization

For new requests for prior authorization received by Wisconsin Medicaid on and after October 1, 2003, (with future dates of service) providers must use:

- The revised PA forms and instructions (refer to Attachments 5-8 of *Update 2003-58*).
- National nonmedical codes.
- Local level of care codes and ancillary codes for dates of service before October 1, 2003.
- Revenue codes for dates of service on and after October 1, 2003.

Refer to Attachment 5 of this *Update* for examples of new requests for prior authorization.

Approved and modified prior authorizations currently in effect

For approved and modified prior authorizations currently in effect with *grant dates before* October 1, 2003, and *expiration dates on and after* October 1, 2003, Wisconsin Medicaid will identify and convert all local level of care codes to national revenue codes. The pre-HIPAA local

level of care codes will remain effective for dates of service before October 1, 2003; however, the converted revenue codes will be effective for dates of service on and after October 1, 2003.

Because the local level of care codes will be converted on these requests for prior authorization, providers must submit claims using the revenue codes that replace the Wisconsin Medicaid local level of care codes for dates of service on and after October 1, 2003. For claims related to prior authorization with dates of service before October 1, 2003, providers must use the local level of care codes approved prior to HIPAA implementation.

Requests for prior authorization with backdating

For requests for prior authorization with backdating received by Wisconsin Medicaid on and after October 1, 2003, providers must use:

- The revised PA forms and instructions (refer to Attachments 5-8 of *Update 2003-58*).
- National nonmedical codes.
- Local level of care codes and ancillary codes for dates of service before October 1, 2003.
- Revenue codes for dates of service on and after October 1, 2003.

Note: If the dates of service span a time period before and after October 1, 2003, providers must indicate both local level of care codes and ancillary codes converted to the revenue code format **and** national revenue codes on the PA forms.

Refer to Attachment 6 of this *Update* for examples of requests for prior authorization with backdating.

Refer to Attachment 5 of this *Update* for examples of new requests for prior authorization.

Requests for prior authorization currently in process

Requests for prior authorization that are received before October 1, 2003, but returned by Wisconsin Medicaid to the provider for more information will not be converted by Wisconsin Medicaid. For returned requests that are received by Wisconsin Medicaid on and after October 1, 2003, providers must use:

- The revised Prior Authorization Request Form (PA/RF) and instructions. Providers will not be required to submit new PA attachments; however, the pre-HIPAA PA/RF and the pre-HIPAA PA attachments must accompany the new PA/RF. (Refer to Attachment 5 of *Update* 2003-58 for the revised PA/RF instructions.)
- National nonmedical codes.
- Local level of care codes and ancillary codes for dates of service before October 1, 2003.
- Revenue codes for dates of service on and after October 1, 2003.

Note: If the dates of service span a time period before and after October 1, 2003, providers must indicate both local level of care codes and ancillary codes converted to the revenue code format **and** national revenue codes on the PA forms.

Prior authorization amendments

For prior authorization amendments received by Wisconsin Medicaid on and after October 1, 2003, providers must use:

- National nonmedical codes.
- Local level of care codes and ancillary codes for dates of service before October 1, 2003.
- Revenue codes for dates of service on and after October 1, 2003.

Note: If the dates of service span a time period before and after October 1, 2003, providers must indicate both local level of care codes and

ancillary codes converted to the revenue code format **and** national revenue codes on the PA forms.
